Chinese Naval Shipbuilding

An Ambitious

An Ambitious and Uncertain Course. Edited by Andrew S.

Erickson. Annapolis: Naval Institute Press, 2016. 376

pages, ISBN: 9781682470817, Hardcover. By Andrew M.

McGreevy. The thesis of

Chinese Naval Shipbuilding:

An Ambitious and Uncertain

Course is that the People's

Republic of China, since

2000, has become the world

leader in commercial

shipping and that its navy

is emerging as a rival to

the dominance of the United

States Navy (USN) in Asian

waters.

Chinese Naval Shipbuilding: An Ambitious and Uncertain

Andrew Erickson's *Chinese Naval Shipbuilding: An Ambitious and Uncertain Course* thoughtfully, clearly, and factually presents the many facets of China's commercial and naval shipbuilding ambition and the sobering scope of that national enterprise. To project China's direction and pace in maritime and global affairs and their impact on U.S. maritime power without absorbing the insights of this book's extraordinary contributors would be a huge mistake and a sure way to get the future

the naval military / naval industry. China is now the world's largest commercial shipbuilder in terms of gross tons constructed per year, exceeding both South Korea and Japan. It is the second largest naval shipbuilder, with only the US exceeding it. The book also provides a very good look into the Chinese shipbuilding and associated governmental organization and structure.
