Whilst Dead Haven doesn't bring anything new or innovative to the table, it does entertain. There's plenty of shuffling, groaning dead flesh that is managing to wander about (okay, so they only murmured "Brains" in my mind) and do a moderate amount of problem solving to get at the lovely warm human flesh.

At one point main character is stuck under a zombie, the very next line he is stood up falling flat on his face losing his gun. The next line he is back stuck under the same zombie. That's just lazy writing. I tried book two, to see if it got any better after book one.

Zombie novels/series are usually the same, but I like it when the reader can identify with the hero or the villain. Here, we watch a guy with low esteem step up and become the reluctant hero while visiting his hometown for his mom's funeral. I like the fact that the author doesn't make our hero one dimensional, and we see him with warts and all.

The zombie outbreak hits its peak with a group of stereotypes stuck in a gym or rec center. This setting is a good example of my concerns with the story. The description of the physical environment was very generic, almost like the author had never been to a similar location. I couldn't get my bearings.
