Efuru is a wonderful, strong character--the perfect woman to show a female perspective. This is a very revolutionary book, and it deserves much more credit than it gets. If anything, the extremes Efuru goes through to please her culture should entertain and educate readers all on its own. flag 3 likes · Like · see review

Explores the life of a Nigerian woman, Efuru, as she copes with life in her village during the Nigerian Civil War.

Appearing in 1966, Efuru was the first internationally published book, in English, by a Nigerian woman. Flora Nwapa (1931 – 1993) sets her story in a small village in colonial West Africa as she describes the youth, marriage, motherhood, and eventual personal epiphany of a young woman in rural Nigeria. The respected and beautiful protagonist, an independent-minded Ibo woman named Efuru, wishes to be a mother. Her eventual tragedy is that she is not able to marry or raise children successfully. Alone and childless, Efuru realizes she surely must have a higher calling and goes to the lake goddess of her tribe, Uhamiri, to discover the path she must follow. The work, a rich exploration of Nigerian village life and values, offers a realistic picture of gender issues in a patriarchal society as well as the struggles of a nation exploited by colonialism.

The story is set in West African Igbo rural community. The protagonist, Efuru, is a strong and beautiful woman. She is the daughter of Nwashike Ogene, a hero and leader of his tribe. She falls in love with a poor farmer called Adizua and runs away with him, upsetting her people as he did not even perform the traditional wine carrying and pay her bride.

Scientific Essay from the year 2013 in the subject Cultural Studies - Black Studies, , language: English, abstract: The novel ' Efuru ' is written by Flora Nwapa in the year 1966. Nwapa is the first female writer in English in Nigeria. It is Nwapa who opened up opportunities for other women writers of the future. She showed deep understanding with ordinary Igbo women of her indigenous tribe, trapped in local social situations over which they could exert little control. The male writers earlier had not explicitly represented about the female Igbos. If they had ever done so, it was done in very partial manner and andocentric. It was stereotypical representation. The reality of the Igbo women was first presented by Flora Nwapa. Her novel ' Efuru ' presents the rural Igbo woman. Economic independence of the rural Igbo woman is one of the themes in the novel. The most important institutions of family and marriage are brought in focus. The ' episteme ' of the male writers available to readers then, concentrated upon the impacts of the political transformations upon people as the themes, due to recent change of power from the British to the Nigerians. It was at that time just after six years of Independence that Nwapa quickly took up the social issues relating to the Igbo women. The social issues combined the marriage, economic and religious aspects of the Igbo woman. Efuru is the protagonist in the novel. She goes through two marriages. But both her marriages end due to her childlessness. Even her immediate society refuses to be kind to her. Stunned Efuru starts taking refuge in the company of one of the Igbo Goddesses or Mami Wata, named Uhamiri. She becomes a selected worshipper of the Mami Wata. The sub-divisions in the article will show how marriage fails to stable Efuru and an ancient religion comes to give some relief to Efuru. Key Words Nwapa; Efuru; Mami Wata; Childlessness; Igbo; Economic; Nigeria

Many teachers of African studies have found novels to be effective assignments in courses. In this guide, teachers describe their favourite African novels - drawn from all over the continent - and share their experiences of using them in the classroom.

"Wilentz . . . makes convincing arguments for the connections between African and Afro-American women's culture." --Nellie McKay "Wilentz's jargon-free, intelligent discussion . . . will appeal to students in African, African American, and women's literature courses, as well as general readers interested in the emerging field." --Choice "Through these works, Wilentz demonstrates the powerful transformation possible through understanding--and embracing--the past, even if that past includes oppression and brutalization." --Belles Lettres Binding Cultures investigates the cultural bonds between African and African-American women writers such as Nigerian Flora Nwapa and Ghanaians Efua Sutherland and Ama Ata Aidoo, writers who focus on the role of women in passing on cultural values to future generations, and African-American writers Alice Walker, Toni Morrison, and Paule Marshall, who self-consciously evoke African culture to help create a more integrated African-American community.

This book is a powerful exploration of the role of women in the evolution of African thinking and narratives on development, from the precolonial period right through to the modern day. Whilst the book identifies women ' s oppression and marginalization as significant challenges to contemporary Africa ' s advancement, it also explores how new written narratives draw on traditional African knowledge systems to bring deep-rooted and sometimes radical approaches to progress. The book asserts that Africans must tell their own stories, expressed through the complex meanings and nuances of African languages and often conveyed through oral traditions and storytelling, in which women play an important role. The book ' s close examination of language and meaning in the African narrative tradition advances the illumination and elevation of African storytelling as part of a viable and valid knowledge base in its own right, rather than as an extension of European paradigms and methods. Anthonia C. Kalu's new edition of this important book, fully revised throughout, will also include fresh analysis of the role of digital media, education, and religion in African narratives. At a time when the prominence and participation of African women in development and sociopolitical debates is growing, this book's exploration of their lived experiences and narrative contribution will be of interest to students of African literature, gender studies, development, history, and sociology.
