While previous works have concentrated on exploring the stereotyped nature of printed imagery of Africa, this study examines the actual production process of images and the books in which they were published in order to demonstrate how, why, and by whom the images were manipulated. Thus, the main focus of the work is not on the aesthetic value of pictures, but in the activities, interaction, and situations that gave birth to them in both Africa and Europe.

European colonialism, this book focuses on a nation historically positioned between the Western and Eastern Empires of Europe – Finland. Although Finland never had overseas colonies, the authors argue that the country was undeniably involved in the colonial world, with Finns adopting ideologies and identities that cannot easily be disentangled from colonialism. This book explores the concepts of ‘ colonial complicity ’ and ‘ colonialism without colonies ’ in relation to Finland, a nation that was oppressed, but also itself complicit in colonialism. It offers insights into European colonialism on the margins of the continent and within a nation that has traditionally declared its innocence and exceptionalism. The book shows that Finns were active participants in

Demonstrating that colonialism was a common practice shared by all European nations, with or without formal colonies, this book provides essential reading for anyone interested in European colonial history.
