This edition of our successful series to support the Cambridge IGCSE Biology syllabus (0610) is fully updated for the revised syllabus for first examination from 2016. Written by an experienced teacher and examiner, Cambridge IGCSE Biology Coursebook with CD-ROM gives comprehensive and accessible coverage of the syllabus content. Suggestions for practical activities are included, designed to help develop the required experimental skills, with full guidance included on the CD-ROM. Study tips throughout the text, exam-style questions at the end of each chapter and a host of revision and practice material on the CD-ROM are designed to help students prepare for their examinations. Answers to the exam-style questions in the Coursebook are provided on the CD-ROM.

Introduction to English as a Second Language Workbook accompanies the Coursebook (sold separately) in this Fourth edition series, and is presented in an accessible updated design. Each Workbook unit reinforces the topic and theme from the corresponding Coursebook unit, and provides additional practice in reading, writing and listening. Furthermore, each Workbook unit starts with a review of key vocabulary from the corresponding Coursebook unit, and contains a specific language focus.

Few subjects hold more universal appeal than that of medicine, and surely few books have evoked medicine's drama and magic more powerfully than On Doctoring. In its many forms, from age-old ritual to the cutting edge of modern science, medicine concerns us all. It is a human profession, practiced by people who have dedicated their lives not only to science but also to humanity. In the words of the great physician-writer Sir William Osler, "The physician needs a clear head and a kind heart; his work is arduous and complex, requiring the exercise of the very highest faculties of the mind, while constantly appealing to the emotions and higher feelings." It is the humanity in medicine that has inspired the pens of countless writers, and that has now been captured in this remarkable anthology of medical literature. This newly expanded edition of On Doctoring is an extraordinary collection of stories, poems, and essays written by physicians and non-physicians alike -- works that eloquently record what it is like to be sick, to be cured, to lose, or to triumph. Drawing on the full spectrum of human emotions, the editors have included selections from such important and diverse writers as Anton Chekhov, W. H. Auden, William Carlos Williams, John Keats, John Donne, Robert Coles, Pablo Neruda, Ernest Hemingway, Raymond Carver, Alice Walker, Kurt Vonnegut, and Abraham Verghese. Among the new authors included in this edition are Rainer Maria Rilke, Lisel Mueller, and May Sarton. In this era of managed healthcare, when medicine is becoming more institutionalized and impersonal, this book recaptures the breadth and the wonder of the medical profession. Presenting the issues, concerns, and challenges facing doctors and patients alike, On Doctoring is at once illuminating and provocative, a compelling record of the human spirit.

"CD-ROM provides over 200 extra exercises to help you practice the grammar presented"--P. [3] of cover.

Ever tried to learn German and found it too hard? Bestselling language coach Paul Noble has a quick and easy way to get you back on track with his unique tried-and-tested method.

When first published this unique novel evoked a tremendous amount of hostile criticism, in most part due to its immoral content. Oscar Wilde was identified with the "art for art's sake" movement of the nineteenth century which did not subordinate art to ethical instruction. However, this novel is indeed a morality tale about the hazards of egotistical self-indulgence. "If it were I," exclaims Dorian, "who were always to be young and that picture that was to grow old . . . I would give my soul for that. "With that spoken, the tale of this young hero of amazing beauty, Dorian Gray, begins. His pact with evil allows his portrait to take on his many sins and degradations while his physical appearance remains youthful. Over the years as he becomes cruel and vicious, even murderous, Dorian's young and perfect body is no longer enough to salvage his deteriorating mind and morality. Will justice and good prevail?

Cheng & Tsui's best-loved Chinese textbook series is new, revised, and better than ever!
