DVD contains video examples of technology-rich lessons.

This book aims at guiding the educators from a variety of available technologies to support learning and teaching by discussing the learning benefits and the challenges that interactive technology imposes. This guidance is based on practical experiences gathered through developing and integrating them into varied educational settings. It compiles experiences gained with various interactive technologies, offering a comprehensive perspective on the use and potential value of interactive technologies to support learning and teaching. Taken together, the chapters provide a broader view that does not focus exclusively on the uses of technology in educational settings, but also on the impact and ability of technology to improve the learning and teaching processes. The book addresses the needs of researchers, educators and other stakeholders in the area of education interested in learning how interactive technologies can be used to overcome key educational challenges.

Teachers are looking for a text that will guide them in the selection of appropriate educational software and help them make decisions about the myriad of available Internet sites. They want to know how all this material can help their students learn better. This text integrates both theory and practice with assessment to make learning outcomes possible.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

We all know that orange is the new black and mass incarceration is the new Jim Crow, but how much do we actually know about the structure, goals, and impact of our criminal justice system? Understanding Mass Incarceration offers the first comprehensive overview of the incarceration apparatus put in place by the world ' s largest jailer: the United States. Drawing on a growing body of academic and professional work, Understanding Mass Incarceration describes in plain English the many competing theories of criminal justice—from rehabilitation to retribution, from restorative justice to justice reinvestment. In a lively and accessible style, author James Kilgore illuminates the difference between prisons and jails, probation and parole, laying out key concepts and policies such as the War on Drugs, broken windows policing, three-strikes sentencing, the school-to-prison pipeline, recidivism, and prison privatization. Informed by the crucial lenses of race and gender, he addresses issues typically omitted from the discussion: the rapidly increasing incarceration of women, Latinos, and transgender people; the growing imprisonment of immigrants; and the devastating impact of mass incarceration on communities. Both field guide and primer, Understanding Mass Incarceration will be an essential resource for those engaged in criminal justice activism as well as those new to the subject.

Presents a collection of essays that combine history, analysis, and love for movies covering such films as "All About Eve," "Casablanca," "Lawrence of Arabia," and "Schindler's List."

A new form of distance learning, online learning is education in which instruction and content comprising a formal course of study are delivered primarily via the Internet. K-12 enrollments in online courses continue to grow, and while there is great potential in the virtual schools movement, there are many challenges inherent in this relatively new method of education delivery. What Works in K-12 Online Learning provides a comprehensive overview of effective online teaching and learning practices. Based on extensive experience and research, chapters cover a full spectrum of topics including virtual course development, online learning in elementary classrooms, differentiating instruction online, professional development for teachers of virtual courses, and the challenges that virtual schools will face in the future. Also available: PowerPoint Magic - ISBN 1564842355 RSS for Educators: Blogs, Newsfeeds, Podcasts, and Wikis in the Classroom - ISBN 1564842398 About the Author Cathy Cavanaugh is an associate professor in instructional technology at the University of North Florida and the editor of Development and Management of Virtual Schools. Robert Blomeyer is an educational technology and K-12 online learning consultant and co-editor of Case Studies in Computer-Aided Learning.

Now you can use your guy's astrological sign to figure out exactly what he wants and needs, and how you can give that to him.
