Peter Wright Spycatcher

Spycatcher: The Candid Autobiography of a Senior Intelligence Officer (1987) is a memoir written by Peter Wright, former M15 officer and Assistant Director, and co-author Paul Greengrass. He drew on his own experiences and research into the history of the British intelligence community.

Spycatcher - Wikipedia

Peter Maurice Wright CBE (9 August 1916 – 27 April 1995) was a principal scientific officer for M15, the British counter-intelligence agency. His book Spycatcher, written with Paul Greengrass, became an international bestseller with sales of over two million copies.

Peter Wright (M15 officer) - Wikipedia

Peter Wright stepped out of the shadows (I suspect because of the renaging on a 'gentlemans' word to honour his Naval R&D Pension credits) to give an insightful (and unwelcomed establishment) window into the necessary world of spy chess.

The former assistant director of M15 offers an account of British Intelligence, including his work on the Ring of Five and exposing Soviet espionage and the conspiracy to oust Harold Wilson from the office of Prime Minister in the 1970s

Peter Wright 's Spycatcher received more legal attention than any other book in history. What started as an attempt by the Secret Service to muzzle a former M15 officer ended with the British Government on trial in Australia. The 1986 case made Spycatcher an international bestseller. And it made the young lawyer who had turned the ' impossible ' case in Wright 's favour – Malcolm Turnbull – an international sensation. In The Spycatcher Trial, originally released in 1988, Turnbull gives a full account of arguably the highest-profile Australian case of all time, discussing Wright 's motives in publishing his dossier of facts and those of Margaret Thatcher and the British Government in relentlessly pursuing it. Above all, Turnbull recreates the drama of the trial that caught the imagination of the world and changed the life of the man who would become Australia 's 29th Prime Minister.

Wright's T'Spycatcher' became the centre of an unprecedented controversy and an international bestseller. This book provides an account of the business of spying interspersed with historical facts and personal anecdotes.

In A Bigger Picture, the bestselling political memoir of 2020, Malcolm Turnbull, Australia 's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation 's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull 's time in office after three years, leaving many Australians asking, ' Why? ' Exceptionally candid and compelling, A Bigger Picture is the definitive narrative of Malcolm Turnbull 's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements – remarkable in their poas and significance, and delivered in the teeth of so much opposition. But it 's far more than just politics. Turnbull 's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all – in his own words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull 's life, A Bigger Picture explores the strengths and vulnerabilities of one of Australia 's best-known and most dynamic business and political leaders. Lyrically written in highly readable and entertaining prose, this is a genuine page-turner that 's not just for political junkies.

Traces the events leading to the accusation that Harold Wilson, head of Britain's Labour government, was a spy.

Spy tells, for the first time, the full, authoritative story of how FBI agent Robert Hansen, code name grayday, spied for Russia for twenty-two years in what has been called the " worst intelligence disaster in U.S. history " – and how he was finally caught in an incredible gambit by U.S. intelligence. David Wise, the nation 's leading espionage writer, has called on his unique knowledge and unrivaled intelligence sources to write the definitive, inside story of how Robert Hansen betrayed his country, and why. Spy at last reveals the mind and motives of a man who was a walking paradox: FBI counterspy, KGB mole, devout Catholic, obsessed pornographer who secretly televised himself and his wife having sex so that his best friend could watch, defender of family values, fantasy James Bond who took a stripper to Hong Kong and carried a machine gun in his car trunk. Brimming with startling new details sure to make headlines, Spy discloses: • the previously untold story of how the FBI got the actual file on Robert Hansen out of KGB headquarters in Moscow for \$7 million in an unprecedented operation that ended in Hansen 's arrest. • how for three years, the FBI pursued a CIA officer, code name gray deceiver, in the mistaken belief that he was the mole they were seeking inside U.S. intelligence. The innocent officer was accused as a spy and suspended by the CIA for nearly two years. • why Hansen spied, based on exclusive interviews with Dr. David L. Charney, the psychiatrist who met with Hansen in his jail cell more than thirty times. Hansen, in an extraordinary arrangement, authorized Charney to talk to the author. • the full story of Robert Hansen 's bizarre sex life, including the hidden video camera he set up in his bedroom and how he plotted to drug his wife, Bonnie, so that his best friend could father her child. • how Hansen and the CIA 's Aldrich Ames betrayed three Russians secretly spying for the FBI – including tophat, a Soviet general – who were then executed by Moscow. • that after Hansen was already working for the KGB, he directed a study of moles in the FBI when – as he alone knew – he was the mole. Robert Hansen betrayed the FBI. He betrayed his country. He betrayed his wife. He betrayed his children. He betrayed his best friend, offering him up to the KGB. He betrayed his God. Most of all, he betrayed himself. Only David Wise could tell the astonishing, full story, and he does so, in mastery style, in Spy.
