Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to.

2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

"A powerful, generous and unforgettable book." - Seth Godin "A wondrous lens on healing ourselves and our world in this strangest and hardest of times." - Krista Tippett We are all born with the wonder switch in the "on" position, but somewhere along the way, our wonder is crushed. And that's when we begin to live out of a self-limiting mindset that shuts down our sense of possibility and purpose. Yet reclaiming your wonder--and with it, your life--is within reach. In *The Wonder Switch*, join world-renowned storyteller and professional illusionist Harris III in a journey to bring you back to the magic you fear you've lost--not the sleight of hand he performs across world stages, but real magic: love, hope, joy, belonging, meaning, and purpose. One of wonder's greatest powers is that it changes the stories we tell ourselves, writes Harris. With the help of his power-packed Transformation Map, you'll gain the tools you need to switch from the old story that leaves you unfulfilled to the new story that will make you a healthier, happier, all-around better human being. In this book, you'll discover: The surprising science behind the stories we tell ourselves and how they shape our lives Practices for "righting" your story from a broken narrative to a restored narrative The secret to breaking out of a Limiting Mindset and developing a Wonder Mindset Practices for moving from complacency to curiosity Why worry is a misuse of your imagination, and how to kick the habit

Drawing on the concepts and principles taught at the Disney Institute, a former Disney executive introduces a series of strategies designed to promote "magic" within any organization, enhanced by real-life anecdotes and sound business advice.

A hilarious, honest memoir—combined with just the right amount of relationship advice—from the popular actress and host of the hit podcast Anna Faris is *Unqualified*. Anna Faris has advice for you. And it's great advice, because she's been through it all, and she wants to tell you what she's learned. After surviving an awkward childhood (when she bribed the fastest boy in the third grade with ice cream), navigating dating and marriage in Hollywood, and building a podcast around romantic advice, Anna has plenty of lessons to share: Advocate for yourself. Know that there are wonderful people out there and that a great relationship is possible. And, finally, don't date magicians. Her comic memoir, *Unqualified*, shares Anna's candid, sympathetic, and entertaining stories of love lost and won. Part memoir—including stories about being “ the short girl ” in elementary school, finding and keeping female friends, and dealing with the pressures of the entertainment industry and parenthood—part humorous, unflinching advice from her hit podcast, *Anna Faris Is Unqualified*, the book will reveal Anna's unique take on how to master the bizarre, chaotic, and ultimately rewarding world of love. Hilarious, honest, and useful, *Unqualified* is the book Anna's fans have been waiting for.

Based upon his weekly Harvard Business Review columns (which is one of the most popular columns on HBR.com, receiving hundreds of thousands of unique page views a month), *18 MINUTES* clearly shows how busy people can cut through all the daily clutter and distractions and find a way to focus on those key items which are truly the top priorities in our lives. Bregman works from the premise that the best way to combat constant and distracting interruptions is to create productive distractions of one's own. Based upon a series of short bite-sized chapters, his approach allows us to safely navigate through the constant chatter of emails, text messages, phone calls, and endless meetings that prevent us from focusing our time on those things that are truly important to us. Mixing first-person insights along with unique case studies, Bregman sprinkles his charming book with pathways which help guide us -- pathways that can get us on the right trail in 18 minutes or less.

The Wall Street Journal bestselling author of *18 Minutes* unlocks the secrets of highly successful leaders and pinpoints the missing ingredient that makes all the difference You have the opportunity to lead: to show up with confidence, connected to others, and committed to a purpose in a way that inspires others to follow. Maybe it ' s in your workplace, or in your relationships, or simply in your own life. But great leadership—leadership that aligns teams, inspires action, and achieves results—is hard. And what makes it hard isn ' t theoretical, it ' s practical. It ' s not about knowing what to say or do. It ' s about whether you ' re willing to experience the discomfort, risk, and uncertainty of saying or doing it. In other words, the most critical challenge of leadership is emotional courage. If you are willing to feel everything, you can do anything. *Leading with Emotional Courage*, based on the author ' s popular blogs for Harvard Business Review, provides practical, real-world advice for building your emotional courage muscle. Each short, easy to read chapter details a distinct step in this emotional “ workout, ” giving you grounded advice for handling the difficult situations without sacrificing professional ground. By building the courage to say the necessary but difficult things, you become a stronger leader and leave the “ should ' ves ” behind. Theoretically, leadership is straightforward, but how many people actually lead? The gap between theory and practice is huge. Emotional courage is what bridges that gap. It ' s what sets great leaders apart from the rest. It gets results. It cuts through the distractions, the noise, and the politics to solve problems and get things done. This book is packed with actionable steps you can take to start building these skills now. Have the courage to speak up when others remain silent Be stable and grounded in the face of uncertainty Respond productively to opposition without getting distracted Weather others ' anger without shutting down or getting defensive *Leading with Emotional Courage* coaches you to build your emotional courage, exercise it effectively, and create an environment in which people around you take accountability to get hard things done.

Peter Bregman, author of the Wall Street Journal bestseller *18 Minutes*, offers strategies to replace energy-wasting, counter-productive habits that commonly derail us with truly effective ones. The things we want most—peace of mind, fulfilling relationships, to do well at work—are surprisingly straightforward to realize. But too often our best efforts to attain them are built on destructive habits that sabotage us. In *Four Seconds*, Peter Bregman shows us how to replace negative patterns with energy boosting and productive behaviors. To thrive in our fast-paced world all it takes is to pause for as few as four seconds—the length of a deep breath—allowing us to make intentional and tactical choices that lead to better outcomes. *Four Seconds* reveals: Why listening—not arguing—is the best strategy for changing someone ' s mind Why setting goals can actually harm performance How to use strategic disengagement to recover focus and willpower How taking responsibility for someone else ' s failure can actually help your team Practical and insightful, *Four Seconds* provides simple solutions to create the results you want without the stress.

THE INSIDE STORY OF THE EPIC TURNAROUND OF FORD MOTOR COMPANY UNDER THE LEADERSHIP OF CEO ALAN MULALLY. At the end of 2008, Ford Motor Company was just months away from running out of cash. With the auto industry careening toward ruin, Congress offered all three Detroit automakers a bailout. General Motors and Chrysler grabbed the taxpayer lifeline, but Ford decided to save itself. Under the

leadership of charismatic CEO Alan Mulally, Ford had already put together a bold plan to unify its divided global operations, transform its lackluster product lineup, and overcome a dysfunctional culture of infighting, backstabbing, and excuses. It was an extraordinary risk, but it was the only way the Ford family—America's last great industrial dynasty—could hold on to their company. Mulally and his team pulled off one of the greatest comebacks in business history. As the rest of Detroit collapsed, Ford went from the brink of bankruptcy to being the most profitable automaker in the world. *American Icon* is the compelling, behind-the-scenes account of that epic turnaround. On the verge of collapse, Ford went outside the auto industry and recruited Mulally—the man who had already saved Boeing from the deathblow of 9/11—to lead a sweeping restructuring of a company that had been unable to overcome decades of mismanagement and denial. Mulally applied the principles he developed at Boeing to streamline Ford's inefficient operations, force its fractious executives to work together as a team, and spark a product renaissance in Dearborn. He also convinced the United Auto Workers to join his fight for the soul of American manufacturing. Bryce Hoffman reveals the untold story of the covert meetings with UAW leaders that led to a game-changing contract, Bill Ford's battle to hold the Ford family together when many were ready to cash in their stock and write off the company, and the secret alliance with Toyota and Honda that helped prop up the American automotive supply base. In one of the great management narratives of our time, Hoffman puts the reader inside the boardroom as Mulally uses his celebrated Business Plan Review meetings to drive change and force Ford to deal with the painful realities of the American auto industry. Hoffman was granted unprecedented access to Ford's top executives and top-secret company documents. He spent countless hours with Alan Mulally, Bill Ford, the Ford family, former executives, labor leaders, and company directors. In the bestselling tradition of *Too Big to Fail* and *The Big Short*, *American Icon* is narrative nonfiction at its vivid and colorful best.

The New York Times bestselling author of *Reality-Based Leadership* rejects the current fad of "engaging" employees and the emotional drama of "meeting their needs"—returning leadership to leaders and productivity to businesses. For years now, leaders in almost every industry have accepted two completely false assumptions—that change is hard, and that engagement drives results. Those beliefs have inspired expensive attempts to shield employees from change, involve them in high-level decision-making, and keep them happy with endless “ satisfaction surveys ” and workplace perks. But what these engagement programs actually do, Cy Wakeman says, is inflate expectations and sow unhappiness, leaving employees unprepared to adapt to even minor changes necessary to the organization ' s survival. Rather than driving performance and creating efficiencies, these programs fuel entitlement and drama, costing millions in time and profit. It is high time to reinvent leadership thinking. Stop worrying about your employees ' happiness, and start worrying about their accountability. Cy Wakeman teaches you how to hire “ emotionally inexpensive ” people, solicit only the opinions you need, and promote self-awareness in your whole team. No Ego disposes with unproven HR maxims, and instead offers a complete plan to turn your office from a den of discontent to a happy, productive place.
