I think these different  
views can be reconciled into  
a common framework for  
thinking about public policy  
implementation success and  
failure that is both simple  
and sophisticated. I

consider two dimensions of  
success in this framework.

1. Functionality focuses on  
'what' is being done in a  
policy intervention, and  
'why'. I understand these to  
be the questions one  
typically asks in the  
project management concerns  
over 'product' and  
'business/strategy/impact'
