Theories of addiction | What is the meaning of addiction?

In the past, addiction was viewed as stemming from an individual ' s moral failing and weakness of will (NIH, 2010). With the advances in scientific research, biological theories of addiction as a “ brain disease ” are now widely accepted; however, this point of view is still controversial. Many prefer to characterize it as a condition that requires continued management, rather than a disease, as it promotes the idea that addiction can be managed through behavioral changes and that the ...

The Meaning of Addiction 3. Theories of Addiction  
Biological Causes of Addiction. A. Tom Horvath, Ph.D., ABPP, Kaushik Misra, Ph.D., Amy K. Epner, Ph.D., and Galen Morgan Cooper, Ph.D. , edited by C. E. Zupanick, Psy.D. Biological models of addiction emphasize the importance of genetics and the biological forces of nature. These theories suggest that brain chemistry, brain structure, and genetic abnormalities cause human behavior.

## Biological Causes of Addiction - Addictions

There are several causes of addiction, which includes biological, sociological, and psychological. The sociological causes of drug addiction focus on society as the main contributors to addiction and drug use. The society plays a significant role when individuals get into using drugs, and when individuals are trying to quit from using these drugs. If a community undertakes and encourages activities that compromise individuals' willingness to stop or avoid drug use and addiction, they then ...

The key theories of addiction - UKEssays.com

Psychologists propose several possible causes of addiction. First, people may engage in harmful behaviors because of an abnormality, or "psychopathology" that manifests itself as mental illness. Second, people may learn unhealthy behavior in response to their environment. Third, people's thoughts and beliefs create their feelings.

Etiological research works to identify the likely causes and correlates of drug use. There are multiple factors that have been identified that contribute to the development of a substance use disorder. However, no one factor, or no one set of factors, will affect all individuals similarly or explain drug use completely.
